Subject: Nyamjang Chhu Hydro Electric Project in Tawang District of Arunachal Pradesh – Change of capacity regarding.

Sir,

This has reference to letter number nil dated 16th July, 2010 intimating that the optimum project capacity has been assessed by CEA as 780 MW. This project was granted TOR for preparation of EIA & EMP report for generation of 900 MW, on 29th December, 2009. It has been noted that reduction in capacity will not change any physical location of project component/ land requirement of the project which was proposed for generation of 900 MW hydro power.

2. The undersigned is directed to inform that this Ministry has no objection for bringing down the capacity from 900 MW to 780 MW.

Yours faithfully,

(Dr. S. Bhowmik)
Additional Director
